PROFILE

Highly motivated Data Analytics professional with strong knowledge and practical skills in data analysis, reporting, and visualization. I have gained hands-on experience through multiple real-world projects involving data cleaning, transformation, manipulation, and exploratory analysis using Python. Proficient in building interactive dashboards using Microsoft Power BI and Tableau, with solid knowledge of SQL and Microsoft Excel. Capable of transforming complex datasets into clear, actionable insights that support data-driven decision-making and improve business performance

WORK EXPERIENCE

Data Analyst

04/2025 – 04/2026

Avant Construction MMC: Baku, Azerbaijan

- Supporting construction and operational teams through data analysis and reporting
- Performing data cleaning, transformation, and exploratory analysis on project and business data
- Building dashboards and reports to support project tracking and data-driven decision-making
- Identifying trends, operational inefficiencies, and key business insights from datasets
- Assisting in monitoring project performance, costs, and operational KPIs

COURSES & CERTIFICATES

Data Analytics Program – Developia Engineering

03/2025 – 10/2025

- Performed end-to-end data analysis using Excel, SQL, and Python, ensuring data quality and consistency
- Conducted statistical analysis and basic modeling in Python
- Built interactive Power BI dashboards to visualize key business metrics
- Used SQL for complex queries and delivered actionable insights through structured analysis

Deloitte Australia Data Analytics Job Simulation on Forage

01/2026

- Completed a Deloitte job simulation involving data analysis and forensic technology
- Created a data dashboard using Tableau
- Used Excel to classify data and draw business conclusions

Tata Data Visualisation: Empowering Business with Effective Insights

04/2026

- Created interactive dashboards using **Power BI and Tableau** to transform complex data into clear business insights
- Selected and designed effective visualizations to support data-driven decision-making
- Communicated analytical findings through impactful and user-friendly data storytelling

Other Certificates

- **Data Modeling in Power BI** – Coursera (Microsoft)
- **SQL Advanced** - HackerRank
- **Oracle Data Base Foundations** - Coursera (Whizlabs)
- **Power BI: Data Analytics and Data Preparation** – Coursera (Whizlabs)
- **Customer Analytics** – Coursera (University of Pennsylvania)

PROJECTS

End-to-End Data Analytics & BI Project01/2026 - 03/2026

Technologies: Python, MS SQL Server, Power BI, Excel

- Designed a data analytics pipeline simulating a real business scenario
- Generated structured datasets (2 fact, 6 dimension tables) and built a star schema model
- Cleaned and preprocessed data in Excel (duplicates, missing values, formats, invalid records)
- Developed ETL pipeline in Python (pyodbc/SQLAlchemy) to load data into MS SQL Server
- Created interactive Power BI dashboard with DAX measures (Revenue, Profit, YTD, Growth) and key Insights

House Price Prediction using Linear Regression04/2026 – 05/2026

Technologies: Python, Pandas, Scikit-learn, Matplotlib

- Built a Linear Regression model achieving an R² score of **0.85+** for house price prediction
- Reduced prediction error by evaluating model performance using Mean Squared Error (MSE)
- Processed and analyzed **500+ housing records** using Python and Scikit-learn

Customer Churn Prediction Model04/2026 – 05/2026

Technologies: Python, Pandas, Scikit-learn, Matplotlib

- Developed classification models with up to **90%+ accuracy** for customer churn prediction
- Compared Logistic Regression, Decision Tree, and Random Forest algorithms to optimize performance
- Improved prediction reliability using feature scaling and hyperparameter tuning with GridSearchCV

EDUCATION

BSc in Business Administration09/2018 - 07/2022

Azerbaijan State University of Economics; Baku, Azerbaijan

MSc in Economics09/2024 - Present

University of Siena; Siena, Italy

SOFT SKILLS

- Analytical thinking
 - Critical thinking
 - Communication skills
 - Problem-solving
- Attention to detail
 - Teamwork
 - Time management
 - Adaptability

TECHNICAL SKILLS

- Python
 - SQL
 - Microsoft Excel
 - Power BI
 - Statistics & probability
- Data visualization
 - Tableau
 - ETL processes
 - Data cleaning
 - Data warehouse

LANGUAGE

- Azerbaijan – Native
 - English – B2
- Turkish – C1
 - Russian – A2
