PROFILE

Highly motivated Data Analytics professional with hands-on experience gained through the Developia Engineering program. Proficient in building interactive dashboards using Microsoft Power BI and Tableau, and skilled in using Python programming language for data cleaning, transformation, manipulation, and visualization. Strong knowledge of SQL and Microsoft Excel. Adept at turning complex datasets into clear, actionable insights that support data-driven decision-making.

WORK EXPERIENCE

Data Analytics Intern

04/2026 - Present

Codveda Technologies: New Delhi, India (Remote)

- Working on real-world data analysis projects to generate actionable insights
- Performing data cleaning, transformation, and exploratory data analysis
- Building reports and dashboards to support data-driven decision-making
- Identifying trends, patterns, and key business insights from datasets
- Continuously improving analytical and technical skills in data analytics tool

COURSES & CERTIFICATES

Data Analytics Program – Developia Engineering

03/2025 – 10/2025

- Performed end-to-end data analysis using Excel, SQL, and Python, ensuring data quality and consistency
- Conducted statistical analysis and basic modeling in Python
- Built interactive Power BI dashboards to visualize key business metrics
- Used SQL for complex queries and delivered actionable insights through structured analysis

Deloitte Australia Data Analytics Job Simulation on Forage

01/2026

- Completed a Deloitte job simulation involving data analysis and forensic technology
- Created a data dashboard using Tableau
- Used Excel to classify data and draw business conclusions

Tata Data Visualisation: Empowering Business with Effective Insights

04/2026

- Created interactive dashboards using **Power BI and Tableau** to transform complex data into clear business insights
- Selected and designed effective visualizations to support data-driven decision-making
- Communicated analytical findings through impactful and user-friendly data storytelling

Other Certificates

- **Data Modeling in Power BI** – Coursera (Microsoft)
- **SQL Advanced** - HackerRank
- **Oracle Data Base Foundations** - Coursera (Whizlabs)
- **Power BI: Data Analytics and Data Preparation** – Coursera (Whizlabs)
- **Customer Analytics** – Coursera (University of Pennsylvania)

PROJECTS

End-to-End Data Analytics & BI Project01/2026 - 03/2026

Technologies: Python, MS SQL Server, Power BI, Excel

- Designed a data analytics pipeline simulating a real business scenario
- Generated structured datasets (2 fact, 6 dimension tables) and built a star schema model
- Cleaned and preprocessed data in Excel (duplicates, missing values, formats, invalid records)
- Developed ETL pipeline in Python (pyodbc/SQLAlchemy) to load data into MS SQL Server
- Created interactive Power BI dashboard with DAX measures (Revenue, Profit, YTD, Growth) and key Insights

Global Big Mac Index Dashboard02/2026

Technologies: Power BI, Excel

- Built an interactive **Power BI dashboard** to analyze the Big Mac Index as a measure of Purchasing Power Parity (PPP)
- Developed DAX measures to compare country prices, identify extremes, and calculate differences vs USA
- Designed a clean, user-friendly dashboard with dynamic filters for deeper data exploration

HR Analytics02/2026

Technologies: Power BI, Excel

- Developed a comprehensive **HR analytics dashboard** in Power BI to monitor workforce metrics
- Analyzed employee distribution, salary structure, and departmental performance using DAX and data modeling
- Enabled data-driven HR decision-making through interactive visualizations and filters

EDUCATION

BSc in Business Administration09/2018 - 07/2022

Azerbaijan State University of Economics; Baku, Azerbaijan

MSc in Economics09/2024 - Present

University of Siena; Siena, Italy

SOFT SKILLS

- Analytical thinking
 - Critical thinking
 - Communication skills
 - Problem-solving
- Attention to detail
 - Teamwork
 - Time management
 - Adaptability

TECHNICAL SKILLS

- Python
 - SQL
 - Microsoft Excel
 - Power BI
 - Statistics & probability
- Data visualization
 - Tableau
 - ETL processes
 - Data cleaning
 - Data warehouse

LANGUAGE

- Azerbaijan – Native
 - English – B2
- Turkish – C1
 - German – A2
